

PAIN OUT LOUD (POL)

Community Values & Membership Guidelines

PAIN OUT LOUD Community is a place for rich and engaging conversations among those who have overcome pain and are willing to share their stories with others looking for inspiration and encouragement. It's a safe place to talk about overcoming or eliminating pain, what changes were made, and how life is more fun without pain. The community is meant to provide HOPE. POL community is not a place to receive medical diagnosis or treatment advice. Each individual must consult with their own physician or medical professional about their particular situation.

The POL Community is a place to connect with others fighting the “pain epidemic or PAINDEMIC®” in the U.S. and the rest of the world. Here is where connections are made with people in our own hometowns or maybe even on the other side of the world. We have a common goal – overcoming and/or living with PAIN! Through the power of community, we are all connected—and together we're stronger! We are celebrating our Successes! Singing our Stories. Saying to those still suffering, “You are not alone!” and “There is Hope!”

This community is a place to be social, where you can join groups, share resources, and learn about events that create public awareness of what needs to change in regards to the rampant pain issues. Dr. Melissa Cady, founder of antiPAIN Lifestyle LLC and Leader of the POL community provides research, webinars, Q&A interviews, videos, and other resources for members. Some information is free to members and some will be available for a fee. **Dr. Cady is NOT acting as your physician.** She is a physician, but is merely providing the benefit of her research and information on the changes she made in controlling her own pain and the wisdom of those with a history of pain and the professionals helping those in pain. No pain professional was paid nor did they pay Dr. Cady for their contribution to the Pain Out Loud website.

Most of all, **the POL Community is a place of encouragement.** It is not a community for complaints or misuse of member's trust. We are here to inform, not criticize. Constructive criticism has its place and can be shared with Dr. Cady.

Members share their pain stories after giving electronic or written consent to share publicly. Stories are considered helpful or uplifting and approved prior to being published. Members share their knowledge and experience in overcoming their particular pain or health situation. Their stories are unique to

them and should be carefully considered by other members before deciding that the same action will provide the same results. All information should be verified as applicable by an individual's medical professional.

Be courteous

This is a diverse community of people with diverse opinions. It is up to each of us to be polite and treat each other with respect.

Be a good citizen

Like any community, the quality of our environment depends on the involvement of our citizens. If you see great content, give it kudos. If you see abuse, report it immediately to dr@challengedoctor.com. Before you write anything, ask yourself if your contribution increases the strength and virtue of the community. You make a difference in shaping the discussions and making the experience better for everyone. The human brain is influenced what it reads, hears, and sees.

Inappropriate Behavior

The following behavior will not be tolerated. We encourage you to report any instances of this behavior immediately by emailing Dr. Cady at dr@challengedoctor.com.

- **Venting, ranting or using hate speech**

We are a community of like-minded believers, but still people with diverse beliefs, opinions and backgrounds, so please be respectful and refrain from making hateful and/or incendiary comments. You are free to express your opinions, but you must do so in a way that respects the opinions of others.

- **Being mean or obscene**

Sexually explicit and/or vulgar language, as well as inappropriate or disturbing images are not permitted in this community. Also, any personal attacks, belligerence, insults, slurs or generally objectionable speech will not be allowed. This is not a match-making community for the purposes of dating.

- **Exploiting the community**

The Partner Community is not designed to attract customers, build your clientele, business, or services. If you have years of experience in something, have a special hobby or write your own blog, you must have specific permission in writing from Dr. Cady (dr@challengedoctor.com). However, it is NOT OK to post links that are unrelated to the topic or are clearly meant only to solicit others for personal and financial gain. Solicitations like "Will you add me as a contact?" or propositioning people (for any financial purpose) will not be allowed.

- **Not being yourself**

Our community is meant to reward Members for sharing their stories and

information freely and openly, so creating multiple accounts or posting content for the sole purpose of gaining kudos is not permitted. Be yourself, and just yourself.

- **Violating the law**

Members of the POL Community are not above the law; so don't post anything that violates the laws of your country, state, province or city. Don't steal anything (like copyright or trademark material) or solicit other contributors to share their personal information. Don't threaten, harass, impersonate or hurt others, and don't invade other people's privacy.

- **Acting maliciously**

Don't post links to sites that contain viruses or malicious programs that interfere with the operation of the POL Community or website.

Have questions?

Feel free to contact us via email at dr@challengedoctor.com, or call us at 669-237-2239.

You may also write us at antiPAIN Lifestyle LLC, PO Box 92844, Austin, TX 78709.

We look forward to building a safe, engaging, and helpful community with you!

Dr. Melissa Cady, D.O.

Leader, PAIN OUT LOUD Community
"The Challenge Doctor"

Author, PAINDEMIC® Book
